ALLEGORY

- By Patrick MacDonough
- A king once made a feast, And at the King's behest, Came wise men from the east And wise men from the west
- They gathered at the board
 And when the feast was done,
 Thus spoke the king, their lord,
 To each and evry one:
- "O'er countiess leagues behold.
 My fields of corn and vine,
 And wealth I have untold
 In forest and in mine.
- "Yet heavy is my care,
 Despite these teeming lands,
 For ill my subjects fare,
 with idle, empty hands.
- "O learned men and wise,
 Bring back the ancient days
 Of faith and sacrifice,
 Of toil and simple ways."
- Of toil and sample.

 They heard, but planned amiss—
 Pride comes before the fall—
 Their failure simply this:
 They thought they knew it all.

THANKSGIVING isn't ALL Turkey!

If you can get home for Thanksgiving, by all means go. But if babies, or business, or other things prevent, then do the next best thing . . . telephone! A telephone home-coming will fit the occasion perfectly, for Thanksgiving is a family festival.

Be sure to telephone if you can't travel. Low Night Rates apply every evening after 7 and all day Sunday (except to nearby points) and recent reduced rates make even the longer calls inexpensive.

It was the time of the greatest expansion or human knowledge, and every man was a discoverer in his own sphere.

It was possibly the greatest event of its kind in recorded time. It has transform-ed the world, and given a sort of complete-ness to science and knowledge which while the western continents of North and South America were undiscovered remained in-complete.

BUT it's the LITTLE THINGS that count

New drapes for the guest room, and Junior's first haircut. A new recipe for peach pie and new pans for baking it. A picnic at the beach, and a new hat for the weekly bridge. Every day events? Of course! But they're the things that make life livable! What's a war in Illyria and another Arctic expedition, compared to the thrill of the first glimpse of the family that's moving in next door, and the delivery of a shining new refrigerator? What's a royal wedding, and twelve rooms filled with gifts, when Anne has her fifth birthday tomorrow? They're interesting enough, something to talk about, to wonder at, perhaps, but pretty far away from that most important spot and the people who live there . . . your own home.

That's where your heart is, and that's where the real thrills lie, in the things that concern you and the people who live around you, next door, in the next block, anywhere in town. There's news about them in every issue of the daily Ontario Intelligencer in "inside page" stories—and in every ad too, for the ads in the Ontario Intelligencer are news! There's news about new clothes for the family, and new food for the table, and new furniture for the home. There's news about new entertainment, and new ways to get to it. There's news about something new on every page, from the latest dispatch on the front page to the new shoes for Anne on the last . . . all written to you and for you, put up in a neat package and delivered at your door-step every day.

Filling in Time until 7 o'clock

With the supper dishes cleared away, Mr. and Mrs. Elmer Bank sit down each Wednesday evening to a rollicking game of checkers. Really they are just filling in time until their son John makes his weekly long distance call from a far-away city - a few minutes after 7 when

Night Rates are in effect. That weekly chat with John is the big event in their placid week. He never fails them, and his cheery chatter means more to them than they would care to say,

Placent reductions and low night rates after 7 p.m. and all day flunday, new glain long distance cost less than ever before.

As she sleeps beside the fire.

TickerTape

Are you up on your market reports? Do you know what to buy, and when, and where?

Brokers and floormen on the Stock Exchange do their trading with a weather eye on the ticker. You can govern your own buying just as efficiently by watching the advertisements in this newspaper.

Women who follow advertisements realize their news value.

They learn what's new and smart and RIGHT in the field of fashion.

Women who follow advertisements know when to buy. They're keen students of value, and quick to see a genuine bargain.

Women who follow advertisements know that they can buy advertised goods with confidence. They know that merchants will not risk their reputations by advertising inferior goods.

Time and effort (as well as money) are saved by these women who road advertisements. They never need "to shop around,"

Advertisements are women's ticker tape. And women who keep their shopping are cooked upon them will fill their wants to the proverbial erry.
